

Year-Round Home Garden Planting Guide

Craig R. Andersen
Associate Professor and
Extension Horticulture
Specialist - Vegetables

The purpose of the Year-Round Home Garden Planting Guide is to show activities in the garden by season.

The closer to the bottom of the box a vegetable or activity is listed, the closer to the end of the month it should be planted or performed.

To produce tomato, broccoli, cabbage and cauliflower for fall crops, sow seed about four weeks earlier than the suggested transplanting date.

This planting guide was prepared for persons in central Arkansas zones B and C. Adjust planting dates earlier or later depending on your particular zone.

For additional gardening information, see your county Extension agent and visit our web site at www.uaex.edu.

For in-depth gardening information, refer to MP128, *Vegetable Gardening in Arkansas*.

Frost Zones for Arkansas		
Zone	Mean Date of Last Spring Freeze	Mean Date of First Fall Freeze
A	March 20	November 15
B	March 27	November 7
C	April 1	October 30
D	April 10	October 24
E	April 20	October 20
